Here to Solve Your Problems

Hannes Snellman's Dispute Resolution practice specialises in cross-border litigation as well as commercial and investment arbitration proceedings. Just like most start-ups exist to solve a problem, we are here to take care of your problems related to disputes.

While we may have 112 years of accumulated experience in serving as counsel under all the major institutional arbitration rules, including FAI, SCC, ICC, LCIA, and SIAC, we approach each dispute, whether big or small, as a unique challenge which we want to help you overcome. We hope that we can convince you to trust us as professionals interested in your business but also as people who are nice enough to work with. You do not have to just take our word for it, you can also rely on what others have said about us in all the leading legal directories. With offices in Finland and Sweden, we can easily meet up with you for a cup of coffee or tea to discuss the best approach for your case. We often find that we can help the best if you contact us early when there are still multiple game plans available. With a large and dedicated team with experience of the most complex

international cases across different business sectors, we can help you navigate your dispute regardless of whether your contractual partner is in Turku, Singapore, Baku, or Louisiana (all references to past cases) and whether they are a company or a government authority. We believe that the client always knows their business the best, but with our extensive expertise in dispute resolution, we have been able to assist our clients with disputes in fields such as engineering and technology, pharmaceuticals, energy, environment, construction, and infrastructure, and we are always keen to learn more about tomorrow's business. We are experienced enough to act as your lead counsel but not too proud to act as co-counsel if the dispute merits a foreign colleague with better-suited experience because we know very well that it takes teamwork and a network of professionals to reach successful results. We may be from small and remote Finland, but that doesn't mean anyone should underestimate us. While disputes are serious business, we don't have to add to the seriousness.

So, will you let us pitch for your next case?

HANNES SNELLMAN

Our Team

“Dedication, commitment and deep understanding and knowledge of the topic – these would be the words I use when describing this practice. We always felt that we were a top priority. Absolutely a great customer experience at our side and a fantastic customer understanding on their side.”

“I have worked with a number of law firms over the years, and Hannes Snellman is separated from the others by a truly customer-oriented and solution-oriented approach. It has been easy to work with Hannes Snellman and together we have been able to find solutions to really challenging situations.”

Legal 500, 2021

“The company has an extremely professional team. I especially appreciate their ability and genuine will to serve the customer as well as possible.
